

Improving HIV Health Outcomes through the Coordination of Supportive Employment and Housing Services

DEMONSTRATION SITE

Positive Resource Center (PRC) I San Francisco, CA Integrative Health Analysis (IHA)

GEOGRAPHIC LANDSCAPE

San Francisco has a wealth of resources for people living with HIV (PLWH). Most service centers are focused in the Mid-Market/Tenderloin neighborhood where approximately 16,000 PLWH reside.

THE CHALLENGE

San Francisco has become infamous for its ever-present homeless population and its extreme unaffordability. 14% of people with new HIV diagnoses are homeless and 68% of them are not virally suppressed while many of them live with substance use & mental health diagnoses.

FOCUS POPULATION

People living with HIV (PLWH) who are low-income, uninsured/underinsured, unstably housed and live in racial and ethnic minority communities as either literally homeless and on the street, in mental health/substance use treatment facilities, or transitionally housed in HOPWA funded housing.

THE MODEL

Clients are enrolled into a low barrier program that provides immediate and critical housing crisis intervention. Clients are connected to unique in-house Employment Services and on-going intervention services to secure permanent housing and maintain access to HIV primary care.

PARTNERS

Lutheran Social Services Forensic Housing Program: HOPWA Housing Provider AIDS Emergency Fund (AEF): Emergency housing fund to prevent homelessness Ferguson Place: 90 day residential substance use treatment services for PLWH Employment Services: Case Management, Rapid Response Employment Help SF General Ward 86: Medical social work, PrEP, HIV primary care

IMPACTS

- Impact 1: Increase employment stability among clients by providing inhouse "Getting to Zero" Rapid Response Employment Services
- **Impact 2:** Increase housing stability among clients by providing housing crisis interventions with the goal of permanent housing
- Impact 3: Increase retention in HIV care and viral load suppression

This project is supported by the Department of Health and Human Services (HHS) Secretary's Minority AIDS Initiative Fund under grant number U90HA31449 and the Health Resources and Services Administration (HRSA)'s HIV/AIDS Bureau (HAB), Special Projects of National Significance (SPNS) program Initiative Improving Health Outcomes Through the Coordination of Supportive Employment & Housing Services for \$700,000. No percentage of this program was financed with non-governmental sources.
