DATA TO CARE (D2C)

- **Data to Care** is a public health strategy that aims to use HIV surveillance **data** to identify HIV-diagnosed individuals not in **care**, link them to **care**, and support the HIV **Care Continuum**.

Michigan HIV Care Continuum, 2017: The frequencies and proportions of PLWH engaged in selected stages of HIV care during 2016 who were ≥ 13 years of age and living in Michigan, diagnosed before January 1, 2017 and still living with HIV December 31, 2017
